Dear Parents and Guardians,

As a follow-up to our previously announced Return to Play Winter Sports Plan regarding Covid-19, we are sending you additional orders and guidelines provided by but not limited to: the National Federation of State High School Associations, the PA Department of Education, the PA Department of Health, and the PIAA Sports Medicine Advisory Committee. These guidelines are sport specific for basketball, competitive cheer, swimming & diving, gymnastics, wrestling, indoor track, ice hockey, and inline hockey. In addition, we have attached the District's Release Form if you have a desire to transport your child to and from an athletic away contest.

We have received numerous inquiries regarding parental attendance at athletic contests. At the present time, it is our intent to permit parents and/or guardians to attend home contests when conditions allow. Most schools will prohibit all visiting spectators including parents from attending their contests. This varies sport to sport. These rules may change as we progress through the season. We will communicate this information through the individual sport on an event-by-event basis.

We look forward to an outstanding winter sports season.

Sincerely,

Bob Bozzto
Director of Athletics, CAA
